How the money reaches you: the Manhattan benefits are fixed amounts paid for the event, not a share of the bill. In network, show the card and the provider bills ManhattanLife directly; whatever the benefits pay beyond the bill comes back to you. Out of network, you pay the provider and the benefits are paid to you.

Affordable Choice surgery benefits (paid on the policy fee schedule) are extra and not counted above.
National average (what insurance pays): Billed: HCUP 2022 average hospital charge (\$69,847). Network price: HCCI 2022 average commercial payment for the hospital itself (\$28,038) — doctors' and surgeons' fees are billed on top. 5.2-day average stay (HCUP 2022)

YOUR NEXT STEP

Put your savings toward your future — TAX-FREE

Your current plan costs \$450.00/mo in premium — but its \$5,000.00 deductible is another \$416.67/mo you have to be ready to pay. That is \$950.00/mo in true cost. Your Package of Protection is \$623.79/mo. So when you count the deductible, you are \$326.21/mo better off — here is what that adds up to if you simply set it aside, before any growth at all.
